

New Homepage released

SP Net info 80

Uploaded: 07.02.2009
Latest revision: 09.01.2015

Up to now the homepage of SoundPLAN Nord ApS has not been very informative. Lately the site has been reworked and hopefully you find it more useful now. The address is unchanged:

<http://www.soundplan.dk/>

Some of the menus and links on the site are only accessible as long as your license is maintained. To approach these sections of the homepage you need a log in. Your log in is your license number + the first 4 digits in your support expire date (without hyphen). These two sets of digits you can read from the SoundPLAN Manager > Help > License information, or if you open the license file with SoundPLAN.exe (e. g. by drag the license file and drop it on a SoundPLAN short cut icon on your desktop), see Fig 1

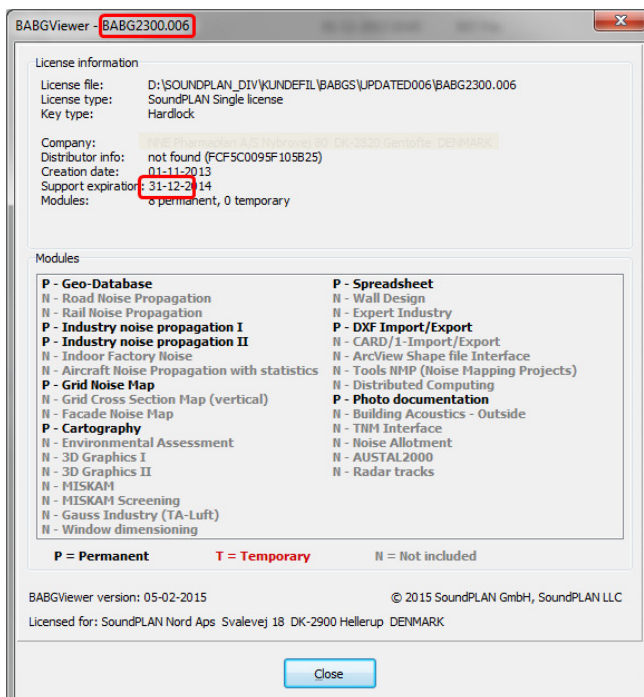

Fig 1 License Information

From the license information in the example in Fig 1 it appears that the license number is 2300 and expire date for support is 31-12-2014, thus the log in will be as shown in Fig 2:

Fig 2 Log in example

The Net Info's can now be read or downloaded from the homepage (if you have a valid log in). New Net Info's will from now on be uploaded on the homepage. Whenever a new Info has been uploaded you will be notified via mail.

The site introduces a new series of guidelines, which can be found together with the Net Info's under the menu 'Support'. These guidelines are addressed to customers with rather specific problems whereas the Net Info's are dealing with more general issues. Also these new 'User Guides' are only for customers, who subscribed to maintenance.

The homepage includes a reference list (menu References under SoundPLAN®). So far only a few companies are shown on the list. These are companies we have been in contact with recently. We would like as many SoundPLAN users as possible to enrol on this list, but we will not include your company/authority without your specific acceptance. Please drop us a mail with the exact company name we can take to the list.

Like always this Net Info is only sent to our official contact person within your company. Please spread it to relevant colleagues.
